Inhalt:

11. Aufgabe

(a). Ritter gegen Drache - -

(b). Adapter -2-

(B). Adapter

```
Stack.java x StackAdapter.java x StackTest.java x
public class StackTest {
    public static void main(String[] args) {
        StackAdapter stacker = new StackAdapter();

        System.out.println(stacker.empty());
        System.out.println(stacker.push(item: "Wael"));
        stacker.push(item: 22);
        stacker.push(item: "Eskeif");
        stacker.push(item: 2000);
        System.out.println(stacker.pop());
        System.out.println(stacker.peek());
        System.out.println(stacker.empty());
    }
}
```

StackTest x
